AGENDA ITEM # 6

TO: Bicycle/Pedestrian Advisory Commission
FROM: Cedric Novenario, Staff Liaison
SUBJECT: Suggested Routes to School Map Outreach

RECOMMENDATION:

Discuss approach to Suggested Routes to School Map outreach

BACKGROUND

On August 25, 2015, the City Council approved the Pedestrian Master Plan (PMP). The Suggested Routes to School (SR2S) Map was also approved as part of the PMP.

DISCUSSION

Staff, with the assistance of the BPAC, held “office hours” at each of the Los Altos School District Schools and Montclair Elementary to obtain feedback and suggestions regarding improvements to the previous SR2S maps. The office hours reached its objective by collaborating with interested parents, students, and school staff and received the necessary feedback to revise and upgrade the SR2S maps.

Given the SR2S maps are now approved, it is recommended to discuss how outreach can be conducted to educate the school communities about the maps. One suggestion is to repeat the “office hours” format. Staff, would seek assistance from the BPAC during office hours again, and coordination with each school would be needed to determine “office hour” dates.

Staff is open to other suggestions regarding outreach.
